

# Motec ECU Sensors

## Air Temp

Air, NTC AC special  
M 25-7225

Air, NTC 12mm  
M 0280 039

Air, NTC 12mm long reach  
M 0280 060

---

## Liquid Temp

Coolant, M12x1.5  
M 0280 026

Coolant, 1/8 NPT  
M 0280 026M

Coolant, 3/8 NPT  
M 25-5227

1/8 pipe stainless temp sensor  
with flying lead  
M 25-2197 D

## Head Temp

Cylinder-head, M12x1.00 LH  
M 0280 059

Cylinder-head, M10x1.00 RH  
M 0280 070

### Tip:

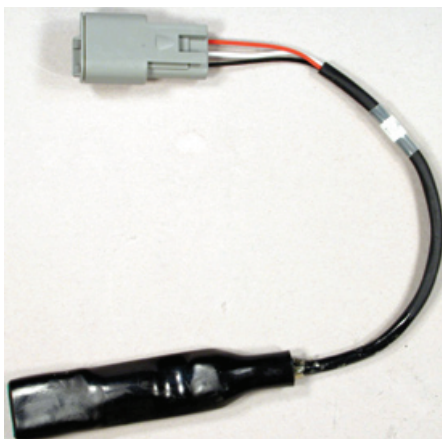

Exhaust-temp measurement has never been easier or more affordable.

Thermocouple amplifiers can drive past either a temp input or an analog voltage input making them easy to configure into your system.

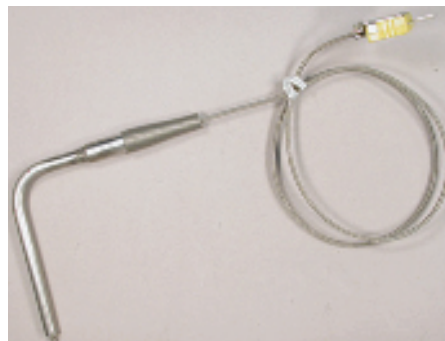

### Open Ended or Closed Ended?

Open ended sensors react faster than closed ended sensors, however they do not last as long. What you gain in response time you give up in longevity.

## Exhaust Temp

Thermocouple amplifier  
M TCA

K-Type Thermocouple  
1/8" Closed end with 12" lead  
(requires thermocouple amp)  
M TC2C

1/8" K-Type Thermocouple stainless bung  
M TC SS20012WBT

1/4" K-Type Thermocouple stainless bung  
M TC SS40064WBT
