

# SnoTechnica 2022

**Make Your Sled Go Faster!**

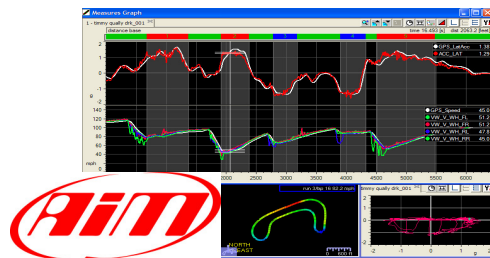

Hosted by MIRA  
Presented by Precision **Auto**Research  
and M&M Sports Center/FormulaX-1

Saturday, December 3rd, 2022

MIRA is proud to host two very informative sessions, jointly presented by renowned race engineers, Dr. David Redszus and Mel Winnie, are guaranteed to help you learn quickly and go faster. This year SnoTechnica covers *Data Logging* and *Clutch Setup and Tuning*.

Data for Race Sleds

## Sat 9am – Basic Training

### Part I -- SnoPro / AIM Data

This session will orient new and established users on setup and basic use of their data systems, and how to navigate the analysis software. While oriented towards early adopters, any who are data-curious will find this interesting. Bring any and all questions!

### Part II -- Clutch Setup 101

This session covers clutch component functions, system operation in theory and practice, the 4 dimensions of alignment, and basic setup targets.

You should know this stuff. If not, get here!

## Sat 1pm – Advanced Training

### Part I -- Using Data Analysis to Win

Intense focus on interpreting data for sleds. Covers analysis tricks and how to interpret advanced sensors. Participants in this session have typically already used data, but are looking to take the next step towards using their systems like a pro.

### Part II -- CVT Advanced Tips and Tricks

This session unlocks many of the mysteries of clutch tuning. Covers the math behind clutch performance, non-intuitive gearing, belt failures, slippage, temperatures, and more.

Held at: Jay's Sporting Goods  
1151 S. Otsego Ave.  
Gaylord, MI 49735  
(989) 705-1339

**Please Pre-register!**  
(see reverse side)

**These will be intense, informative sessions, not sales promos! Bring your laptop (and calculator!), open mind, and all your questions. Informal question/answer session will be available after the seminars to discuss your specific applications.**

# SnoTechnica 2022
