

# *More power for your Spec Racer Ford*

***Your engine has been dyno-tested, calibrated and certified by SCCA Enterprises using **FirePower** race blend 324.***

***FirePower 324*** was selected by SCCA Enterprises only after extensive comparison testing against all available legal fuels. The selection criterion included:

- Drivability (throttle response),
- Torque breadth & power,
- Consistency,
- Health and safety,
- Legality  
(FP324 is street & SCCA SRF class legal)

***FirePower 324*** outperformed everything else.

For maximum, consistent performance, shouldn't your engine also run on **FirePower** blend **324**?  
Your engine thinks so.
